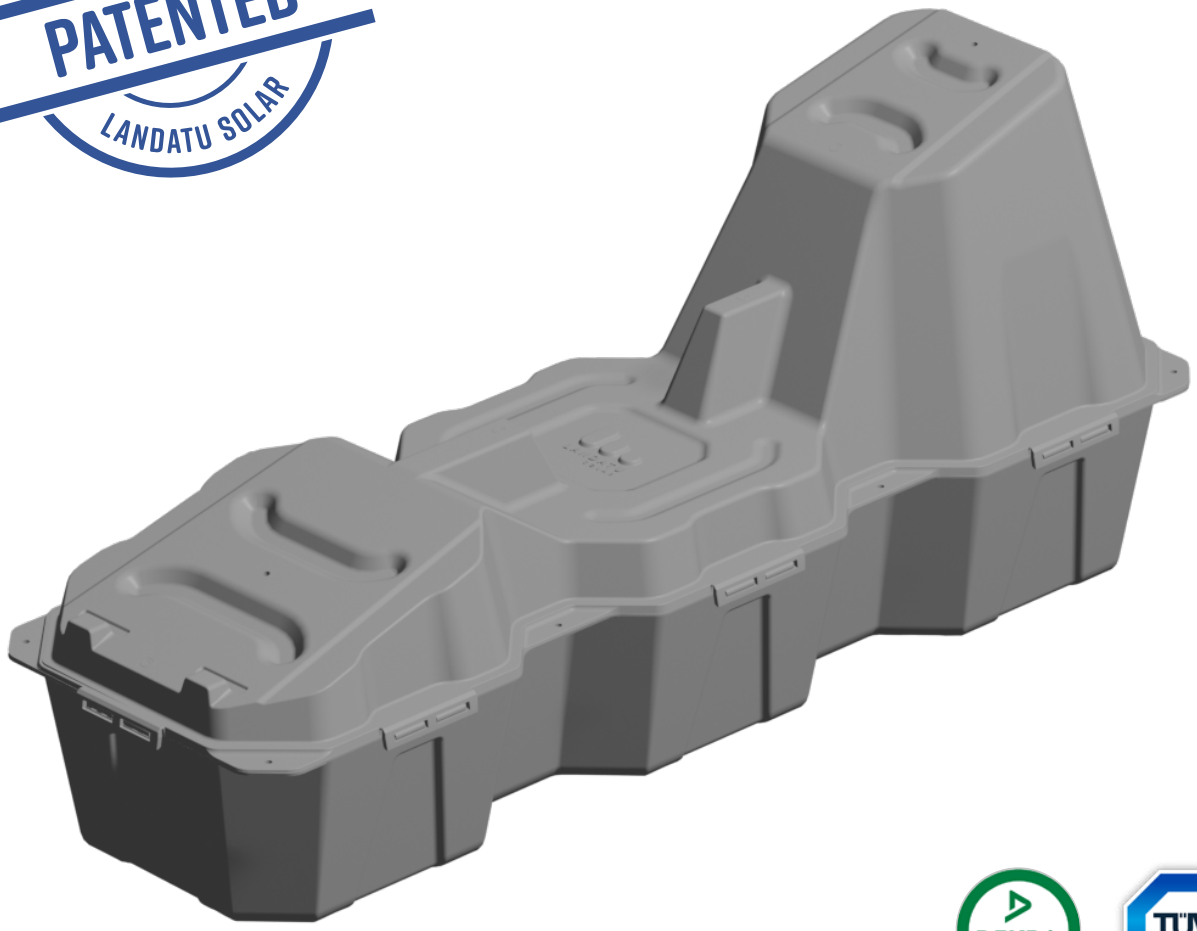
TECHNICAL DATA SHEET
LANDBLOCK®

LANDATU SOLAR

PRODUCT PATENTED LANDATU SOLAR



What is LANDBLOCK®?

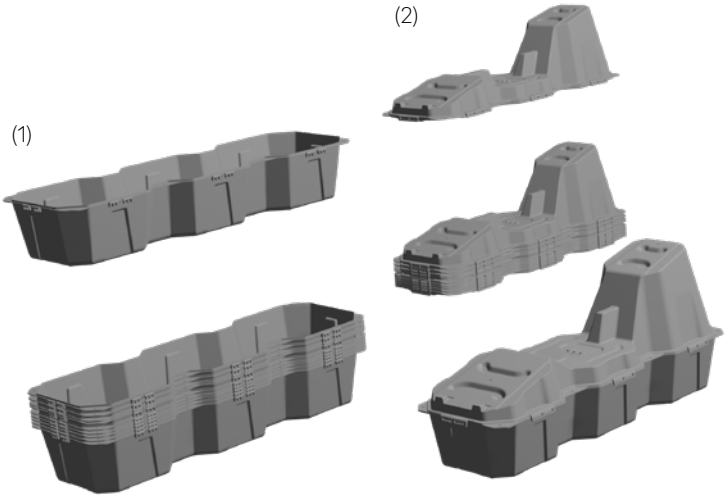
LANDBLOCK® is a support with water ballast that is perfect for installing solar systems on any flat surface (rooftop, ground, etc.).

Advantages

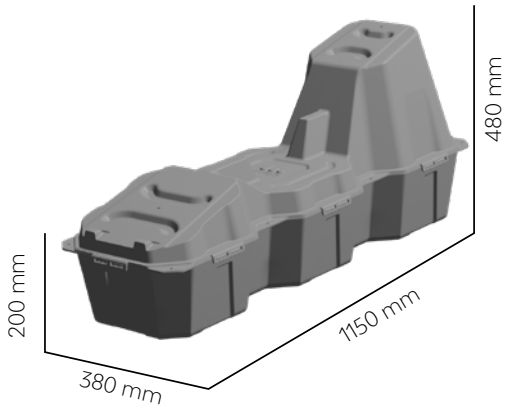
- ✔ **Efficient:** Lowers costs and reduces installation time
- ✔ **Simple:** Easy to install, NO foundation work, NO metal structures and NO heavy machinery
- ✔ **Logistics:** Lightweight and stackable Lowers transport and storage costs

SPECIFICATIONS

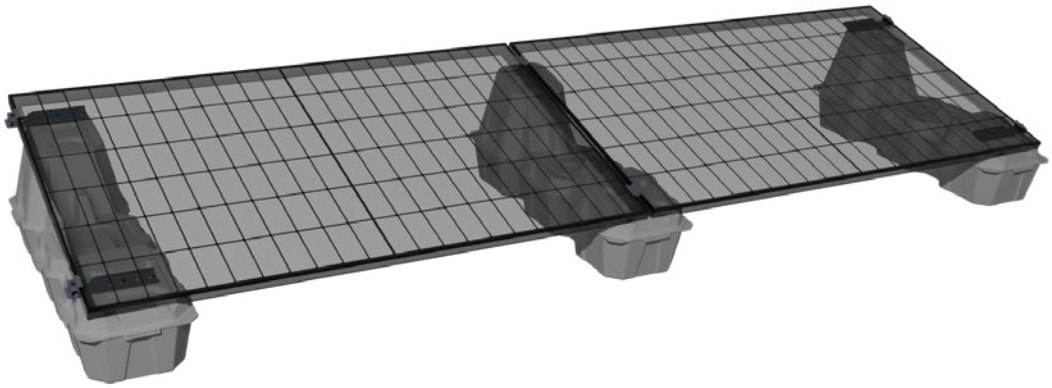
General	
System	Support for photovoltaic modules
Product warranty	10 years
Area of use	All kinds of flat surfaces
Dimensions	380 x 1150 x 480 mm
Surface slope	Maximum 0-5°
System properties	
Material	HDPE, aluminium
Module tilt	15°
Temperature range	-30° C to 100° C
Approx. weight of empty support	3 kg/support (base + cover)
Ballast capacity	56 liters / Up to 100 kg (water, sand, gravel...)



Stackable Includes a base (1) and cover (2).



LANDBLOCK® Support.



Expandable. Use as many LANDBLOCK® modules as you need to set up your solar system.
